

What is Software?

Software is a set of instructions (programs) that tell a computer how to perform specific tasks. It is intangible, meaning you cannot touch it like hardware.

Types of Software

Software is mainly divided into **two categories**:

1. System Software

- ▶ This software manages and controls computer hardware so that application software can function.
- ▶ It acts as a bridge between the hardware and user.

Examples:

- ▶ Operating System (e.g., Windows, Linux)
- ▶ Device Drivers (e.g., printer driver)
- ▶ Utility Programs (e.g., antivirus, disk cleanup)

2. Application Software

This software is used to perform specific tasks for the user.

Examples:

- ▶ MS Word (word processing)
- ▶ Excel (spreadsheets)
- ▶ Chrome (web browsing)
- ▶ Tally (accounting)

Utility Software

Category

Freeware

Shareware

Open-source

Proprietary

Description

Free to use but source code is not available

Free for a limited trial period, paid later

Free to use and modify the source code

Paid software, cannot be modified

Examples

VLC, Skype

WinRAR, IDM

Linux, LibreOffice

MS Office, Adobe Photoshop

What are Mobile Apps?

- ▶ **Mobile apps (Mobile Applications)** are software programs specifically designed to run on **smartphones, tablets**, and other mobile devices.
- ▶ They allow users to perform various tasks such as chatting, playing games, watching videos, shopping, managing accounts, and more.

Based on Technology

Type	Description	Example
Native Apps	Developed for a specific mobile operating system (Android or iOS).	WhatsApp (Android), Safari (iOS)
Web Apps	Accessed through a mobile browser, do not require installation.	Flipkart website, Gmail Web App
Hybrid Apps	Combination of native and web apps. Built using web technologies but work like native apps.	Instagram, Uber

S.No.	App Name	Category	Use/Purpose
①	UMANG	Government Services	Provides access to 100+ government services like PAN, Passport, EPFO, etc.
②	DigiLocker	Document Storage	Allows users to store and access digital documents like Aadhaar, DL, Marksheets.
③	BHIM UPI	Digital Payments	For instant UPI-based money transfer between banks using mobile number or QR.
④	Aarogya Setu	Health	COVID-19 contact tracing and health updates from the Government of India.
⑤	mAadhaar	Identity Services	Access and manage Aadhaar card information on your mobile.
